

# N.H. House Republican Alliance

The purpose of the House Republican Alliance is to preserve and strengthen the traditional principles and values of the Republican Party through the NH House of Representatives and throughout the state of NH, including fiscal restraint, personal freedom and responsibility, small government, free enterprise and strong families. We offer the following scorecard based on those principles, the Republican Party Platform and the NH and Federal Constitution

“The constitutional concept of federalism recognizes and protects diversity. Today, federalism is one check that is out of balance as the diversity of the States has given way to the uniformity of Washington. And our task is to restore the constitutional symmetry between the central Government and the States and to reestablish the freedom and variety of federalism. In the process, we'll return the citizen to his rightful place in the scheme of our democracy, and that place is close to his government. We must never forget it. It is not the Federal Government or the States who retain the power -- the people retain the power. If the Federal Government is more responsive to the States, the States will be more responsive to the people, and that's the reason that you, as State legislators, and I, as President, are in office -- not to retain power but to serve the people.” Ronald Reagan.

# 2005 Targeted Roll Call Vote Descriptions

These are the targeted New Hampshire House Roll Call votes used in the annual analysis.

The "Vote Standard" type (Yea or Nay) is the vote based on the NHHRA Recommendation Sheet which used the New Hampshire Constitution and the NH Republican Party Platform as the basis for the recommendations.

***“The Price of Liberty is Eternal Vigilance.” Thomas Jefferson”***

The preamble to RSA 91a states, “ *Openness in the conduct of public business is essential to a democratic society. The purpose of this chapter is to ensure both the greatest possible public access to the actions, discussions and records of all public bodies, and their accountability to the people.*” Article 8 of the N.H. Constitution states, “ *All power residing originally in and being derived from, the people, all the magistrates and officers of government are their substitutes and agents, and at all times accountable to them.*” Government, therefore, should be open, accessible accountable and responsive. We fully support our constitution and RSA 91a and believe that roll call votes promote truth and transparency in government. Roll call votes are a public service and create a permanent voting record to let the people see how they have been represented. This is a great step towards accountability and critical to maintaining our republican form of government. The people have a right to know.

The NHHRA has compiled a record of roll call votes for the past year. This scorecard consists of votes on bills that we believe best represent support for Republican values such as, fiscal restraint, personal freedom and responsibility, smaller government, free enterprise and strong family values during this 2005 legislative session. The scorecard is available to anyone by visiting our web site. This information is being provided to give the citizens of New Hampshire a starting point with which to compare how their elected state representatives have voted on Republican issues this year. We understand that this scorecard is open to interpretation by all who read it, and believe that the level of accountability and information that it offers will be an asset to the citizens we are elected to represent.

Our thanks go out to the many NHHRA members who donate their precious time and energy so that we may provide this information and to all the members of the General Court who honorably serve the citizens of New Hampshire

The voting records for all individuals listed are available at <http://gencourt.state.nh.us/house/default.html> and the NH House Republican Alliance web site at <http://www.nhhouserepublicanalliance.org>
