

# STATEMENT OF PRINCIPLES

We, the duly elected delegates of the Republican Party of New Hampshire, in convention assembled, in discharge of the duty we owe to our constituents and our state, unite in the following Platform of Republican Principles:

We, the people of the New Hampshire Republican Party, do stand united in our dedication to preserving freedom, limited government, and unlimited opportunity for all.

We believe, above all else, in the founding principle that all people are created equal, endowed by our Creator with the right to life, liberty and the pursuit of happiness, unimpeded by intrusive government regulation and control.

We believe that the New Hampshire and United States Constitutions were written by our forefathers to limit our government, not our freedom.

We believe that individual liberty is guaranteed under the Constitutions of the United States and New Hampshire, that the liberty of the people must be protected above the power of the government, and that it is only through an adherence to our founding documents that we will continue to grow as a free, Constitutional Republic.

We believe that the Founding Fathers gave the 1st Amendment its preeminent position with intent that religious freedom deserves to be protected.

We believe that the 2nd Amendment is in a position of prominence with the intent that law-abiding citizens of the United States of America have a right to protect and defend their lives, their families, and their property without government infringement.

We believe in free people, free markets, and free enterprise.

We believe that happiness and success are the result of individual effort, hard work, and dedication to a purpose.

We believe that economies flourish when all people retain as much of their hard-earned income as possible, to spend and invest as they see fit.

We believe that low taxes are the result of low spending; that the government has a moral obligation to the people to be as cost effective as possible, to always limit spending and growth of government, and to cut spending and cost of government at every possible turn.

We believe that a strong national defense is necessary to preserve freedom and opportunity in America, and we believe that secure national borders are an integral part of a strong national defense.

We believe that freedom can exist only in a nation that is willing to defend it. The utmost honor must be bestowed upon those who are willing to serve and sacrifice in the United States Military. Let us never forget those whose greatest sacrifice has protected a free and strong America for all.

We believe that life is sacred, from conception to natural death and that we cannot diminish the value of one category of human life without diminishing the value of all human life.

We believe that traditional families are the foundation of strong communities, and that family life best nurtures love of country, faith in God, morality, and concern for others.

We believe that we the people are strongest when we stand together, that it is our responsibility to hold the government accountable and that it is through the integrity of the ballot box that we do so.

We believe that every child is filled with potential and is unique in their own right; as such we believe there is no one-size-fits-all education solution; we support expanded education choices, including but not limited to: education tax credits, charter schools, and homeschooling. We believe in local educational control, beginning with parents, teachers, and principals.

We believe as the New Hampshire Constitution states, that acquiring, possessing, and protecting property is a natural, essential and inherent right.

We believe that New Hampshire, with her rock-solid values and proud history of political activism, must preserve our First In The Nation Primary position.

We believe that the history of the Republican Party is a story of strength, courage and patriotism; our party was founded in the fight to end the despicable practice of slavery, it was the Republican Party that fought for the right of all women to vote, it was Republicans in Congress who fought to overcome the southern Democrats' resistance to pass civil rights legislation and it is Republican values that will lead our nation forward in freedom and opportunity for all.

We believe that local governments should not be allowed to infringe on individual rights and that the state should ensure protection from such local government overreach.

We believe that the liberty of parents to direct the upbringing, healthcare, education, and wellbeing of their children is a fundamental right. Decisions regarding the upbringing, healthcare, education, and wellbeing of children should be the free choice of parents, acting on the children's behalf, unimpeded by intrusive government regulation and control.

We, the people of the New Hampshire Republican Party, pledge to our neighbors across our great, beautiful, and proud state, that we remain dedicated to maintaining a limited, affordable government, to lead with integrity, character and compassion, and to forever defend the freedom that has made the United States of America a beacon of hope for all people.

We support legal immigration and believe that enforcement of immigration laws is in New Hampshire's best interests. Effective enforcement of both the northern and southern borders will combat the severe adverse societal impacts of illegal immigration such as drug smuggling, human trafficking, child exploitation and gang violence.

We oppose amnesty for anyone who enters New Hampshire illegally. Giving amnesty to illegal immigrants undermines the system and encourages a wide range of illegal activity. We encourage the enforcement of trespassing laws on New Hampshire conservation and private lands. New Hampshire agencies should assist affected landowners in apprehending and prosecuting criminal trespassers and in appropriate tort or property damage claims. We support enforcement of federal immigration laws, condemn lawlessness and oppose the formation of sanctuary cities.

We believe dumping toxic chemicals into the air in order to mitigate the supposed threat of global warming by blocking the sun is insane and dangerous, that geoengineering in all its forms must be opposed in order to preserve the beauty and environment of New Hampshire.

“That the history of the nation during the last (six) years has fully established the propriety and necessity of the organization and perpetuation of the Republican Party, and that the causes that called it into existence are permanent in their nature, and now, more than ever before, demand its peaceful and constitutional triumph...

That the present Democratic Administration has far exceeded our worst apprehensions in its measureless subserviency to the exactions of (special) interests...and in its general and unvarying abuse of the power entrusted to it by a confiding people...

That the people justly view with alarm the reckless extravagance which pervades every department of the Federal Government; that a return to rigid economy and accountability is indispensable to arrest the systematic plunder of the public treasury by favored partisans...(and)

Finally, having thus set forth our distinctive principles and views, we invite the co-operation of all citizens, however differing on other questions, who substantially agree with us in their affirmance and support.” – Republican Platform, 1860
